OVER A SCORE DEAD

TWO GUNPOWDER MAGAZINES EXPLODED WITH A FRIGHTFUL CONCUSSION.

FIFTY PERSONS ARE INJURED

HOUSES WITHIN A RADIUS OF FOUR HUNDRED YARDS TOTALLY WRECKED.

CAUSE OF THE CALAMITY

WORKMAN POURED NITRIC ACID INTO NITROGLYCERIN UP ON THE FLOOR.

Lowell, Mass., July 30.—Two small gunpowder magazines, situated in the very midst of the humble residences of fifty mill operatives, exploded Wednesday with a frightful concussion and the resultant wave of death cut off the lives of more than a score of human beings and injured nearly fifty others. Half a dozen men who were loading kegs of powder from one of the magazines were blown to pieces; four boys 200 yards away were killed by the force of the explosion, and fourteen frame houses within a radius of 400 yards went down as if they had been built of cards. Seven of these houses immediately caught fire, probably from the kitchen stoves, and were completely consumed. At least three persons were caught in the ruins and burned to death, while seven or eight others, who were rescued, died subsequently of their injuries. It is estimated that seventy separate pieces of property, including those already mentioned, were destroyed, while the force of the explosion wrecked windows for five or six miles around, and its thunder could be heard distinctly more than fifty miles away. The following is the list of those known to have been killed in the explosion:

List of Known Dead.

George Finn, John McMahers, Louis E. Richards, James L. Grady, all employed by the United States Cartilage company; James B. Sullivan, Charles Moore, Jean Raleau, all employed by the Stanley Forwarding company; Gilbert McDermott, ten years; Michael McDermott, twelve years; Thomas Houlihan, eleven years; Joseph Houlihan, ten years; William Galloway, Robert Galloway and his son Robert, Alfred Le Brun, Mrs. Catherine Riggs, Eddie Rogers, George A. McDermott, four years old; Josephine Perusse, eleven years old; Mrs. Victoria Perusse, Zephraim Perusse. The nine last named were killed by the fall of their homes or burned to death. The body of an unknown man was also found. Four persons are missing, two carpenters, names unknown, John Riggs and Patrick Spencer. Those fatally injured are: Amadee Boulanger, eighteen years; Clarendon Goodwin, sixty years; Mrs. Howard Burdett, Miss McDermott, Eliza Galloway, Clara Superna.

Almost Surrounded by Dwellings.

The magazines were the property of the United States Cartilage company of this city, but fortunately were situated more than a mile away from the factory itself. They were built of brick about ten feet high, with a rounded roof of corrugated iron. They were constructed some thirty years ago in what was then a broad open field on the banks of the Concord river. During the past decade small wooden dwelling houses have gradually sprung up in the vicinity, crowding nearer and nearer with fancied security to the two innocent looking little buildings until they almost completely surrounded them, except on the river side, the nearest house being scarcely fifty feet away.

Sent to Remove the Powder.

The company had for some time been desirous of strengthening the floor of the magazine nearest the street and in the morning eight men, three of them employees of the company, three expressmen and two carpenters, were sent there with three large express teams to take out the powder and mend the floor. Two of the teams had been loaded and the other was almost full when at 9:06 o'clock the explosion occurred. It was a long time before the actual cause of the explosion could be ascertained. It was thought at first that everyone within a radius of fifty feet of the magazine had been killed, but later it was found that Clarendon Goodwin, the foreman of the men who were loading the powder on the teams, had survived, together with one of his assistants, Amadee Boulanger, and in the afternoon the latter was seen in the hospital.

He said that the men went down to the magazine nearest the street to fix the floor and after the teams had been loaded with the powder which was in the magazine, it was discovered that a can of nitroglycerin, which was stored in the magazine, was leaking. Mr. Goodwin picked up what he thought was a Jug of Water and began pouring it onto the nitroglycerin with the idea of diluting it and washing it up. As soon as the fluid from the jug struck the floor, he found that it was nitric acid. The floor at once began to smoke and when the men saw it, they rushed from the building, but had not gone ten feet when the explosion occurred. This magazine was therefore the first to go up, followed immediately by the gunpowder in the three teams and several seconds later by the second magazine. To those who heard the crash, it seemed as if there were two distinct explosions, with a continuous roar between them. There are, however, five holes in the ground, which seems to clearly indicate five explosions. The entire catastrophe, however, occupied the space of scarcely five seconds, but in that time the surrounding property was swept as if a small volcano had broken forth in its midst. Every house within 200 yards collapsed. Trees were blown down, the grass within 100 yards mowed as if by a lawn mower, while bricks from the two magazines were hurled far across the river and all over the neighborhood.

Air Filled With Smoke.

For several minutes afterward the air was completely filled with smoke and dust, illuminated by the glare from the already burning houses. The work of rescue at once began, but in many cases the flames had already gained full sway over the crumbled ruins and several persons were burned to death before the debris which covered them could be removed. The property is situated just over the Lowell line in Tewksbury, but the Lowell fire department did noble work in caring for the wounded. Before a stream of water was started from the engines, the hose from all the wagons was taken out and the bodies of the wounded were placed in the wagons and hurried to the hospital. Ambulances soon appeared on the scene and assisted the firemen; and all sorts of vehicles were pressed into the service. Nearly forty persons were taken to the two hospitals within half an hour, while many more whose injuries were slight had their wounds dressed and remained on the scene where they assisted in caring for the less fortunate.

Crowd Hinders Rescuers.

The explosion shook the city and within half an hour there were at least 5,000 persons on the scene of the catastrophe. The crowd so badly hindered the work of caring for the wounded that the mayor sent out a militia call. Three companies responded and three hours later had thrown a cordon of men around the district and cleared the place of every one except those immediately engaged in quenching the flames and searching for victims.

Two hundred yards further down the river from the second magazine the firemen suddenly came across the bodies of four little boys who were about to have a swim. A fifth member of the party was in the river when the explosion occurred, and escaped without injury.

Demolished a Residence.

Apparently the force from this second magazine was expended in two directions, north and south. On the north it completely demolished the house of William Riggs, about fifty yards away, almost burying Mrs. Riggs and badly injuring her little son. Mrs. Riggs died before being taken to the hospital. On the other side of the magazine was a grove of trees, through which the explosion tore a path fifty feet wide, for a distance of nearly 300 yards. The four little boys were caught in the center of this path, and three were instantly killed, the body of one of them being frightfully mutilated, the head being completely blown off. The fourth was alive when he was discovered by the police and firemen, but did not long survive. Most of the property destroyed consisted of small buildings constructed of wood and at a comparatively small cost. The property loss, therefore, will not be heavy. The selectmen of the town of Tewksbury believe that \$75,000 will cover the entire loss.

BRUSH WITH THE CONVICTS.

Outlaws and Pursuers Exchange Shots Without Result.

Folsom, Cal., July 30.—The posse under the direction of Sheriff Kenna of Placerville, and Sheriff Boswell of Brower, had a brush with the fugitive Folsom convicts on Greenwood creek, and a number of shots were exchanged, but so far as can be learned, nobody was hit. The convicts avoided a decisive encounter and are supposed now to be working back in the general direction of Coloma.

THREE LABORERS KILLED.

Landslide Occurs in Great Northern Tunnel at Seattle.

Seattle, Wash., July 30.—Three laborers were killed last night by a slide of earth in the southern end of the Great Northern tunnel, which is building under Seattle. The dead are: Frank Smith, Joe Carlo and Franchese Vorgeske.

Hearing on Machen's Demurrer.

Washington, July 30.—The district supreme court has fixed Aug. 5 for hearing on the demurrer of August W. Machen, formerly general superintendent of the free delivery division of the postoffice department, to the indictments against him. The demurrer will be filed in court in a day or two.

OBJECTIONS TO GOTTI

CARDINAL LOGUE OF ARMAGH CHARACTERIZES THEM AS BEING ABSURD.

OMEN POINTS TO RAMPOLLA

FORMER CARDINAL SECRETARY OF STATE GETS APARTMENT FIFTY-EIGHT.

Rome, July 30.—Cardinal Logue, archbishop of Armagh, had an interview Wednesday with Cardinal Gibbons. When asked what he thought of the objections frequently mentioned against Cardinal Gotti being elected pope on the grounds that his being a member of a religious order would prevent him from dealing in a board spirit with Catholic problems in America and Great Britain, Cardinal Logue said:

"It is absurd. Cardinal Gotti was formerly an internuncio and has mixed with the representatives of the various powers. He knows the prevailing conditions as well as anybody. Just because he is a Carmelite, it does not follow that he is narrow minded. Moreover, it is unreasonable to attribute too much weight to the personality of the new pope. International matters and internal policy are now almost invariably settled by commissions of cardinals, who, certainly under the late Pope Leo, have directed their departments just as much as the heads of departments of a civil government direct their departments. But, whoever may be pope, it is not likely that he will attempt to make any changes in policy without being careful to take the advice of those commissions which have heretofore directed the policy of the Vatican."

Voting Forms Distributed.

During Wednesday's meeting of the congregation the forms to be used in voting at the conclave were distributed among the cardinals in order that each might be able to learn how to employ his ballot. After the meeting, Cardinal Oreglia requested the cardinals to visit their cells and be prepared at today's meeting to present any complaint which they may have.

Superstitious people here find an omen in the fact that Cardinal Rampolla drew apartment No. 58, which in the book of lottery stands for pope, and, consequently, they come to the conclusion that fate has marked him to be the next pope. Cardinal Agliardi has relinquished his cell, near the Sistine Chapel, to Cardinal Cretoni on account of the latter's illness. Over the door of each of the cells has been placed the coat-of-arms of the cardinal who is to occupy it. Should all the sixty-two cardinals now in Rome enter the conclave it will be the most numerous attended in history. The conclave which elected Leo was attended by sixty-one cardinals. In the past pontes have been elected by as low as nine.

The ecclesiastics who are to watch the sliding doors which will be the only means of communication between the conclave and the outside world have been requested to be present at the Vatican at 5 o'clock Friday afternoon to assume their duties. The sliding doors will only be opened between 9 and 11:30 o'clock in the morning and between 5 and 7 in the evening. At all other times they will be locked.

DRAMATIC CONTRAST IN ROME.

Solemn Requiem Masses for King Humbert and Pope Leo.

Rome, July 30.—Rome during the morning was the scene of one of those dramatic contrasts which are now so characteristic of the Eternal City. While at the Vatican, in the Sistine chapel, a solemn requiem mass was being intoned, with all the solemnity the Catholic church can impose for the repose of the soul of Leo XIII, the spiritual monarch who claimed Rome as his capital, another and no less solemn requiem mass was being celebrated in the magnificent Pantheon for the repose of the soul of the late King Humbert, the temporal monarch, the capital of whose kingdom was Rome. King Victor Emmanuel and Dowager Queen Margaret came here on purpose to attend the annual mass, which is celebrated on the anniversary of the assassination of King Humbert, which occurred three years ago. The king drove to the Pantheon and arrived in time to meet Queen Margaret, who was dressed in deepest black. After a tender embrace mother and son entered the Pantheon, heard the mass and placed wreaths on the tomb of King Humbert and King Victor Emmanuel.

ARTHUR'S SUCCESSOR DEAD.

Chief of the Locomotive Engineers Expires at Meadville, Pa.

Cleveland, O., July 30.—A dispatch received here early today says A. B. Youngson, who succeeded to the grand chairmanship of the Brotherhood of Locomotive Engineers on the death of Chief P. M. Arthur, died at Meadville, Pa., early this morning.

Prior to his demise he named M. H. Shay of Youngstown, O., as his successor, to act in case of his death. Shay is chairman of the committee of adjustment in the brotherhood on the Erie and one of the most capable men in the order.

SERIOUS RELIGIOUS RIOTS.

Reformers in Central Persia Butchered by the Rabble.

London, July 30.—The Times this morning describes serious religious riots in the city and provinces of Yazd, in Central Persia, which lasted more than a fortnight and culminated at the end of June. The outbreak was directed against religious reformers called Babis. In the city for two days every Babi found was butchered by the rabble and the mutilated bodies were dragged through the streets, followed by exultant crowds. Houses were looted, women beaten and killed and finally the priestly leaders of the riot enjoined the populace to bring all remaining Babis before them or the governor for judgment. The governor refused at first to yield to the threats of the mob, but his palace was surrounded by menacing men and the following day he consented. One Babi taken before him was blown from the mouth of a cannon and another was killed and dragged through the town. Order, it is reported, has been restored, but the Babis who escaped are in hiding.

ROYALTY AT KILLARY BAY.

King Edward and Queen Alexandra Take a Motor Car Trip.

Dublin, July 30.—The royal yacht Victoria and Albert, with King Edward and Queen Alexandra aboard, which left Bunrara, on the north coast, Tuesday, arrived at Killary Bay, on the west coast, Wednesday. Their majesties were accompanied by the Earl of Dudley, lord lieutenant of Ireland.

Despite the inclement weather, they landed on the Mayo side of the bay, and afterwards they proceeded in a motor car through the picturesque scenery of that portion of Ireland, inspecting many of the laborers' cottages on the way. At night the warships in the bay were illuminated and bonfires burned on the surrounding hills.

Today their majesties will travel by motor car through the Connemara country. Queen Alexandra has given the Earl of Dudley \$2,500 for distribution among the poorest people of Dublin and other parts of Ireland.

ADVISED TO KEEP COOL.

Chamberlain Tells Britons Not to Turn an Economic Issue into Personal Fight.

London, July 30.—The house of commons Wednesday passed the sugar convention bill to its second reading by a vote of 224 to 144.

In the course of the debate upon the bill Colonial Secretary Chamberlain, in defending it, said:

"For twenty years we have tried to secure the voluntary abandonment of bounties. It was only when we changed our policy and suggested retaliation that we secured the object for which we had struggled so long and so escaped a condition of things under which Germany and Austria would be able to regulate the price of sugar in Great Britain."

Mr. Chamberlain did not touch directly upon the fiscal question, but incidentally remarked: "We are on the eve of a great economic fight and it behooves everybody to keep cool as long as possible and not turn an economic issue into a personal fight."

LIGHTNING KILLS SIX.

Terrific Wind, Rain and Hail Storm in Michigan.

Alpena, Mich., July 30.—A terrific wind and rain storm, accompanied by hail, passed over Alpena county during the night, causing much damage to orchards and crops. James Fingleton was killed by lightning. Much damage is also reported in Presque Isle county.

At Parrisville, a village in Alcona county, on the lake shore below here, lightning instantly killed James DeForest and his wife in their home. Doll Crothers, a farmer near Onaway, in Presque Isle county, was killed by a lightning bolt. In Long Rapids Andrew Hansen, aged fourteen years, and his cousin, a young girl, were both killed and Hansen's uncle was seriously injured while they were sitting in their parlor watching the storm.

WAR VERY IMPROBABLE.

General Kuropatkin Considers Hostilities With Japan Remote.

London, July 30.—The St. Petersburg correspondent of the Daily Mail reports that General Kuropatkin, the Russian minister of war, who has just returned from the Port Arthur conference, expressed himself as pleased with the results of his tour, and that he communicated to the czar the opinion that although a fairly strong party in Japan wanted war with Russia, the bulk of the nation was too sensible to yield to such "jingoism" and that the mikado was well disposed toward Russia. The correspondent says that General Kuropatkin considers that the situation has been cleared for a long time and that war is very improbable.

DRIVEN FROM TOWN

MINERS' UNION OFFICIALS FOREVER BANISHED FROM IDAHO SPRINGS, COLO.

FOR BLOWING UP BUILDINGS

THE FOURTEEN OUTCASTS HAD BEEN ARRESTED FOR A DYNAMITE OUTRAGE.

Idaho Springs, Colo., July 30.—After a meeting of business men last night, 500 men of Idaho Springs went to the city jail and took fourteen men, who had been arrested in connection with the blowing up of the Sun and Moon mine buildings last night, marched them to the city limits and told them never to return.

The men driven out include Howard Trestdell, president of the local miners' union; A. D. Alcott, vice president; George Decker, secretary; Peter Bedner, treasurer, and two or three members of the executive committee. All the others are prominent members of the union. Some of the men complained that they had no money, and a purse was made up for them. Everything was done in an orderly manner and not a rough word or act was indulged in toward the men.

At the meeting at which the action was determined upon, it is said, fully 80 per cent of the city's business was represented. It was presided over by P. D. Collium, city attorney, and addressed by President Hauchett of the First National bank and others equally prominent.

The other prisoners were taken to Georgetown, the county seat, last evening. The explosion of the Sun and Moon mine near here wrecked the transformer house, set fire to the oil in the transformers and threatened the destruction of the main shafthouse.

The watchman at the mine saw men running away at the time and shot one of them. He was taken in charge and cared for. The mine employed non-union men after a strike. Dynamite is believed to have been used.

Twenty-two members of the Miners' union, including President Trestdell and the other officials were arrested charged with conspiracy to blow up the mine. They protested ignorance of a conspiracy and declared that they advised the men to obey the law. They intimated that the destruction of the property was part of a scheme to cast discredit on the Western Federation of Miners.

Twenty nonunion men were working in the eighth level of the mine at the time of the explosion, but none was injured. The damage caused by the explosion amounts to several thousand dollars.

DENIES AN INJUNCTION.

Restraining Order Refused Against St. Paul Plumbers.

St. Paul, July 30.—Judge Kelly has denied the injunction against the striking plumbers prayed for by the employers.

The judge finds that there has been no case made out that would warrant an injunction.

He upholds the right of laborers to form unions and to quit their employment in a body for the purpose of compelling their employers to grant demands for higher wages and other betterments in their condition.

Such strikers have not a right to interfere with men that take their places, nor to picket the employer's place of business, but the judge does not find that the striking plumbers have done any of these things to an extent that would warrant an injunction.

CATARRRH

of the head, nose, throat, lungs or stomach in any stage the treatment costs you nothing. You doubtless have catarrh and want to be cured. You have tried nearly everything. Yet there is only one absolutely known cure for catarrh in America, and that is MEDERINE. The great blood and catarrh cure. It acts directly upon the mucous membrane through the blood, opens up the nasal passages, soothes and allays all inflammation of the affected parts, reaches the seat of the disease by filtering, cleansing and purifying the blood. MEDERINE has revolutionized the treatment and cure of Catarrh, and created the greatest sensation in medical circles.

Thousands of Catarrh Sufferers in every section of the country bear testimony to being cured of CATARRH by the timely remedy that cures MEDERINE.

A Case of Nasal Catarrh.
John L. Parks of Richmond, Ind., writes: "Your MEDERINE is a wonder. I had a bad case of Catarrh of the head and nose. For years I suffered from the disease. I tried almost everything that was advertised without any appreciable benefit. Finally I saw your MEDERINE advertised, and concluded as a last resort to try a bottle of it. I used two boxes of your treatment according to directions, and today I consider myself cured and free from the disease in any form."

Bordering on Insanity.
J. M. Lynch of Kansas City, Mo., writes: "I hardly know how to express to you my thanks for the cure that MEDERINE has done me. I was a great sufferer from Catarrh of the head. I was in a state bordering on insanity, with ringing sounds in my ears. I was nearly blind. The last evening I took MEDERINE, and in two months I was cured. I have no pain in my head, sleep well, eat heartily and am gaining my usual strength."

Write MEDERINE REMEDY CO., Duluth, Minn., for their system of treatment. All letters answered. Illustrations of catarrh containing testimonials of cured cases mailed free.

PRICE \$1, PER BOTTLE. Sent express prepaid if your druggist does not carry MEDERINE in stock. **6 BOTTLES FOR \$5.**

CAUSE OF THE CALAMITY

WORKMAN POURED NITRIC ACID INTO NITROGLYCERIN UPON THE FLOOR.

Lowell, Mass., July 30.—Two small gunpowder magazines, situated in the very midst of the humble residences of fifty mill operatives, exploded Wednesday with a frightful concussion and the resultant wave of death cut off the lives of more than a score of human beings and injured nearly fifty others. Half a dozen men who were loading kegs of powder from one of the magazines were blown to pieces; four boys 200 yards away were killed by the force of the explosion, and fourteen frame houses within a radius of 400 yards went down as if they had been built of cards. During Wednesday's meeting of the congregation the forms to be used in voting at the conclave were distributed among the cardinals in order that each might be able to learn how to employ his ballot. After the meeting, Cardinal Oreglia requested the cardinals to visit their cells and be prepared at today's meeting to present any complaint which they may have.

Superstitious people here find an omen in the fact that Cardinal Rampolla drew apartment No. 58, which in the book of lottery stands for pope, and, consequently, they come to the conclusion that fate has marked him to be the next pope. Cardinal Agliardi, who is near the Sistine Chapel, has relinquished his cell, near the Sistine Chapel, to Cardinal Cretoni on account of the latter's illness. Over the door of each of the cells has been placed the coat of arms of the cardinal who is to occupy it. Should all the sixty-two cardinals now in Rome enter the conclave it will be the most numerous attended in history. The conclave which elected Leo was attended by sixty-one cardinals. In the past popes have been elected by as low as nine.

The ecclesiastics who are to watch the sliding doors which will be the only means of communication between the conclave and the outside world have been requested to be present at the Vatican at 5 o'clock Friday afternoon to assume their duties. The sliding doors will only be opened between 9 and 11:30 o'clock in the morning and between 5 and 7 in the evening. At all other times they will be locked.

DRAMATIC CONTRAST IN ROME.

Solemn Requiem Masses for King Humbert and Pope Leo.

Rome, July 30.—Rome during the morning was the scene of one of those dramatic contrasts which are now so characteristic of the Eternal City. While at the Vatican, in the Sistine chapel, a solemn requiem mass was being intoned, with all the solemnity the Catholic church can impose, for the repose of the soul of Leo XIII, the spiritual monarch who claimed Rome as his capital, another and no less solemn requiem mass was being celebrated in the magnificent Pantheon for the late King Humbert, the temporal monarch the capital of whose kingdom was Rome. King Victor Emmanuel and Dowager Queen Margaret came here on purpose to attend the annual mass, which is celebrated on the anniversary of the assassination of King Humbert, which occurred three years ago. The king drove to the Pantheon and arrived in time to meet Queen Margaret, who was dressed in deepest black. After a tender embrace mother and son entered the Pantheon, heard the mass and placed wreaths on the tomb of King Humbert and King Victor Emmanuel.

ARTHUR'S SUCCESSOR DEAD.

Chief of the Locomotive Engineers Expires at Meadville, Pa.

Cleveland, O., July 30.—A dispatch received here early today says A. B. Youngson, who succeeded to the grand chieftainship of the Brotherhood of Locomotive Engineers on the death of Chief F. M. Arthur, died at Meadville, Pa., early this morning.

Prior to his demise he named M. H. Shay of Youngstown, O., as his successor, to act in case of his death. Shay is chairman of the committee of adjustment in the Brotherhood of Locomotive Engineers, and one of the most capable men in the order.

SERIOUS RELIGIOUS RIOTS.

Reformers in Central Persia Butchered by the Rabble.

London, July 30.—The Times this morning describes serious religious riots in the city and provinces of Yezd, in Central Persia, which lasted more than a fortnight and culminated at the end of June. The outbreak was directed against religious reformers called Babis. In the city for two days every Babi found was butchered by the rabble and the mutilated bodies were dragged through the streets, followed by exultant crowds. Houses were looted, women beaten and killed and finally the priestly leaders of the riot enjoined the populace to bring all remaining Babis before them or the governor for judgment. The governor refused at first to yield to the threats of the mob, but his palace was surrounded by menacing men and the following day he consented. One Babi taken before him was blown from the mouth of a cannon and another was killed and dragged through the town. Order, it is reported, has been restored, but the Babis who escaped are in hiding.

ROYALTY AT KILLARY BAY.

King Edward and Queen Alexandra Take a Motor Car Trip.

Dublin, July 30.—The royal yacht Victoria and Albert, with King Edward and Queen Alexandra aboard, which left Bunrara, on the north coast, Tuesday, arrived at Killary Bay, on the west coast, Wednesday. Their majesties were accompanied by the Earl of Dudley, lord lieutenant of Ireland.

Despite the inclement weather, they landed on the Mayo side of the bay, and afterwards they proceeded in a motor car through the picturesque scenery of that portion of Ireland, inspecting many of the laborers' cottages on the way. At night the warships in the bay were illuminated and bonfires burned on the surrounding hills.

Today their majesties will travel by motor car through the Connemara country.

Queen Alexandra has given the Earl of Dudley \$2,500 for distribution among the poorest people of Dublin and other parts of Ireland.

ADVISED TO KEEP COOL.

Chamberlain Tells Britons Not to Turn an Economic Issue Personal Fight.

London, July 30.—The house of commons Wednesday passed the sugar convention bill to its second reading by a vote of 224 to 144.

In the course of the debate upon the bill Colonial Secretary Chamberlain, in defending it, said: "For twenty years we have tried to secure the voluntary abandonment of bounties. It was only when we changed our policy and suggested the tariff which we had struggled so long under which Germany and Austria would be able to regulate the price of sugar in Great Britain."

Mr. Chamberlain did not touch directly upon the fiscal question, but incidentally remarked: "We are on the eve of a great economic fight and it behooves everybody to keep cool as long as possible and not turn an economic issue into a personal fight."

LIGHTNING KILLS SIX.

Terrific Wind, Rain and Hail Storm in Michigan.

Alpena, Mich., July 30.—A terrific wind and rain storm, accompanied by hail, passed over Alpena county during the night, causing much damage to orchards and crops. James Fingleton was killed by lightning. Much damage is also reported in Presque Isle county, on the lake shore below here. Lightning instantly killed James DeForest and his wife in their home. Dell Crothers, a farmer near Onaway, in Presque Isle county, was killed by a lightning bolt. In Long Rapids Andrew Hansen, aged fourteen years, and his cousin, a young girl, were both killed and Hansen's uncle was seriously injured while they were sitting in their parlor watching the storm.

WAR VERY IMPROBABLE.

General Kuropatkin Considers Hostilities With Japan Remote.

London, July 30.—The St. Petersburg correspondent of the Daily Mail reports that General Kuropatkin, the Russian minister of war, who has just returned from the Port Arthur conference, expressed himself as pleased with the results of his tour, and that he communicated to the czar the opinion that although a fairly strong party in Japan wanted war with Russia, the bulk of the nation was too sensible to yield to such "jingoism" and that the mikado was well disposed toward Russia. The correspondent says that General Kuropatkin considers that the situation has been cleared for a long time and that war is very improbable.

DRIVEN FROM TOWN

MINERS' UNION OFFICIALS FOREVER BANISHED FROM IDAHO SPRINGS, COLO.

FOR BLOWING UP BUILDINGS

THE FOURTEEN OUTCASTS HAD BEEN ARRESTED FOR A DYNAMITE OUTRAGE.

Idaho Springs, Colo., July 30.—After a meeting of business men last night, 500 men of Idaho Springs went to the city jail and took fourteen men, who had been arrested in connection with the blowing up of the Sun and Moon mine buildings last night, marched them to the city limits and told them never to return.

The men driven out include Howard Treastdel, president of the local miners' union; A. D. Alcott, vice president; George Becker, secretary; Peter Bedner, treasurer, and two or three members of the executive committee. All the others are prominent members of the union. Some of the men complained that they had no money, and a purse was made up for them. Everything was done in an orderly manner and not a rough word or act was indulged in toward the men.

At the meeting at which the action was determined upon, it is said, fully 80 per cent of the city's business was represented. It was presided over by F. D. Collier, city attorney, and addressed by President Hanchett of the First National bank and others equally prominent.

The other prisoners were taken to Georgetown, the county seat, last evening. The explosion of the Sun and Moon mine near here wrecked the transformer house, set fire to the oil in the transformers and threatened the destruction of the main shafthouse.

The watchman at the mine saw men running away at the time and shot one of them. He was taken in charge and cared for. The mine employed non-union men after a strike. Dynamite is believed to have been used.

Twenty-two members of the Miners' union, including President Treastdel and the other officials were arrested charged with conspiracy to blow up the mine. They protested ignorance of a conspiracy and declared that they advised the men to obey the law. They intimated that the destruction of the property was part of a scheme to cast discredit on the Western Federation of Miners.

Twenty nonunion men were working in the eighth level of the mine at the time of the explosion, but none was injured. The damage caused by the explosion amounts to several thousand dollars.

DENIES AN INJUNCTION.

Restraining Order Refused Against St. Paul Plumbers.

St. Paul, July 30.—Judge Kelly has denied the injunction against the striking plumbers prayed for by the employers.

The judge finds that there has been no case made out that would warrant an injunction.

He upholds the right of laborers to form unions and to quit their employment in a body for the purpose of compelling their employers to grant demands for higher wages and other betterments in their condition.

Such strikers have not a right to interfere with men that take their places, nor to picket the employer's place of business, but the judge does not find that the striking plumbers have done any of these things to an extent that would warrant an injunction.

Working Night and Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain-fog into mental power. They're wonderful in building up the health of the afflicted, and today I consider myself cured and free from the disease in any form.

AN ASTONISHING OFFER!

IF FOR ANY REASON WE FAIL TO CURE YOUR

CATARRRH

of the head, nose, throat, lungs or stomach in any stage the treatment costs you nothing.

You doubtless have catarrh and want to be cured. You have tried nearly everything. Yet there is only one absolutely known cure for catarrh in America, and that is MEDERINE. HINT: the great blood and catarrh cure. It acts directly upon the mucous membrane through the blood, opens up the nasal passages, soothes and always all inflammation of the affected parts, reaches the seat of the disease by filtering, cleansing and purifying the blood. MEDERINE has revolutionized the treatment and cure of Catarrh, and created the greatest sensation in medical circles.

Sufferers in every section of the country bear testimony to being cured of CATARRH by the remedy that cures MEDERINE.

A Case of Nasal Catarrh. John L. Parks of Richmond, Ind., writes: "Your MEDERINE is a wonder. I had a bad case of Catarrh of the head of Nasal Origin. For years I suffered from the disease. I tried almost everything that was advertised without any appreciable benefit. Finally I saw your MEDERINE advertised, and concluded as a last resort to try a bottle of it. I used two boxes of your treatment according to directions, and today I consider myself cured and free from the disease in any form."

Bordering on Insanity. J. M. Lynch of Kansas City, Mo., writes: "I hardly know how to express to you my thanks for the cure that MEDERINE has done me. I was a great sufferer from Catarrh of the head. I was in a state bordering on insanity, with ringing sounds in my ears. I was nearly blind. The last evening I took MEDERINE, and in two months it cured me. I have no pain in the head, sleep well, eat heartily and am gaining my strength faster than I lost it."

Write MEDERINE REMEDY CO., Detroit, Mich., for their system of treatment. All letters answered. Illustrations booklet containing instructions of every model free.

Send express prepaid if your druggist does not carry MEDERINE in stock.

UNTIMELY DEATH
OF W. F. STREET
He was Accidentally Killed While
Out Hunting With his Wife
And Brother.
WELL KNOWN IN MINNESOTA.
Had Practiced Law at Bemidji
for Years and was Heavy
Townsite Owner.

SPECIAL TO THE DISPATCH:
BEMIDJI, MINN., JULY 30, 1903.—Attorney W. F. Street was instantly killed this morning by the accidental discharge of a shot gun.
Mr. Street and his wife and his wife's brother went out hunting. Mrs. Street's brother, a mere lad, was carrying a gun and he stumbled and fell, the gun being accidentally discharged. Mr. Street got the full charge and was killed instantly.
Deceased was one of the best known men in northern Minnesota, being especially so as a townsite owner. He was a well known lawyer and had practiced his profession in Bemidji for years. The sad feature about the affair is the fact that he was married only a month ago and his wife is overcome with grief.

HAY FEVER FOR 27 YEARS
Well Known New England Woman Cured
by Hyomei--Cure was Lasting.

The thousands of discouraged people who dread summer's approach because they think that hay fever cannot be avoided, will read with interest and gratitude the following statement from Helen F. Williams, of Mansfield, Mass.
"For 27 years, from the month of August until heavy frost, I have been afflicted with hay fever, growing worse and worse each year, and of late years I was unable to attend to my work during last period.
"Last summer I fortunately gave Hyomei a trial and am happy to say that it entirely cured me and I have had no return of the affliction since."

This letter is one of many that have come to the proprietors of Hyomei, and the results following this treatment have been so wonderful that it is proposed at the annual convention of hay fever sufferers to recommend Hyomei to all who are susceptible to this disease.
Hyomei is a treatment for hay fever that combines the latest discoveries of science and the best of common sense. Knowing that a change of climate was the only way in which relief could be obtained, the evolution of Hyomei naturally resulted. By breathing its germ killing and healing balsams, any one can have, at any moment of the day, either in their home, the office or the factory, a climate like that of the White Mountains or other health resorts where hay fever is unknown.

H. P. Dunn & Co. agree to refund the money to any hay fever sufferer who uses Hyomei if it does not give satisfaction. 53

WOMAN AND FASHION
Girl's Linen Frock.
This year embroidery is the prevailing trimming for children's as well as women's gowns. The embroidery designs need not be elaborate, and the simplest are considered the smartest. This kind of embroidery worked in the old fashion cross stitch through embroidery canvas can be done by any one, and the few hours' time required to embroider a collar, stock, belt and

cuffs or the yoke or front to a little gown will be amply repaid by the style and smartness thus added.

The little frock illustrated is for a ten or twelve year old girl and is of mercerized lavender linen. It is made with a double box plait in the front of the skirt and shirred on the sides. The waist also has a front box plait and a wide collar with stole ends in front. The box plaits, collars and cuffs are embroidered in a simple diamond scalloped with lavender. The yoke is floss. The collar and cuffs are also trimmed with a fine white muslin ruffle in darker shades of lavender linen of tucked white muslin, and the hat is of white rice straw, trimmed with purple pansies.

New Belt.
In order to be in keeping with the fashions that carry all garments below the waist line the new belts have tabs that are becoming to a stout or slender figure. An inexpensive one is made of black stitched glaze silk and finished with silk tassels. The back is decorated with buttons. One of the chief novelties of this belt is the manner of sewing the hooks and eyes in the front so as to give the sloping, long waist effect. The hooks are sewed on the usual way, but the eyes are placed along the top edge of the other end of the belt.

The aforesaid young lady visited the City of Pines a few days since and while she was looking at "The Girl From Up There" up there some one touched her for her watch. A few days later the young man who took her to the show sent her a new gold watch to take the place of the one she lost.—Transcript.

Mrs. J. E. Hurd and children, of Minneapolis, are in the city visiting with Mrs. Hurd's mother, Mrs. D. Campbell.

Mr. and Mrs. R. D. Holden and children left this afternoon for the club house near Portage for a few weeks outing.

J. B. Baird, general freight agent and H. E. Still, assistant, of the Northern Pacific, went north this afternoon on the M. & I.

Mrs. P. E. Egan and children left for their home in St. Paul this afternoon after spending a part of the summer at Parkville.

Fire night before last at Walker completely destroyed the warehouse of the Akely Lumber company with contents, consisting of complete outfits for four lumber camps stored during the summer. The loss is estimated at \$6,000, with only a very small insurance.

There was supposed to be a meeting last night of the general citizen's committee to take up the water works proposition, but there were not enough members present to make a quorum. A report was to have been made by Attorney A. D. Polk on the constitutionality of the condemnation proceedings law. The committee will meet again next Wednesday night.

Wallace Barker, of Aitkin, returned from the Twin cities this afternoon.

Mr. and Mrs. Thos. Gibson left this afternoon for St. Paul for a few days visit.

Mrs. S. Eau Claire left this afternoon for St. Paul where she will visit for some time.

There will be a dance by the "Hot Time" band at Gilbert lake on Saturday evening.

Mrs. F. W. Wieland and son and daughter, Walter and Bessie, left this afternoon for St. Paul.

A. D. Dickinson left this afternoon for St. Paul where he expects to make his home in the future.

C. M. Patek returned from the cities this morning. He took in the carnival at St. Paul for a day or two.

Mrs. George Sargent returned this morning from Cross Lake where she has been visiting with friends.

L. A. Canfield and family today moved from their residence at 212, Fourth avenue N. E., out to their farm.

Landlord McGarry, of Blackduck, came down this morning and left on No. 5 for Minneapolis and St. Paul on business.

J. W. A. Courtemanche, of Montreal, representing the Catholic Calendar Publishing company, is in the city today.

Father Anslem, who was in the city during the absence of Rev. D. W. Lynch, returned to St. John's university this afternoon.

Miss L. Raymond, who has been visiting in the city with Mrs. Chas. McCarthy, left this afternoon for her home in St. Cloud.

R. J. Loughery, who has been visiting in the city, the guest of Supt. Strachn, of the M. & I., left this afternoon for his home in Chicago.

Patrick Corrigan, an old time Brainerd lad, arrived in the city this afternoon from Minneapolis. He will visit here for a week or two.

Johnathan Chase, of Minneapolis, an old time Brainerdite, was in the city for a visit with N. B. Chase. He left for his home this afternoon.

Mrs. Bruns came up from Anoka this afternoon to join her husband, Dr. Bruns, and they will go out to Parker vill for a few days outing.

Mrs. W. H. Roach and children, who have been visiting in the city with Mr. and Mrs. Patrick McGrane, left today for their home at Cresco, Ia.

The Sunday school of the Swedish Lutheran congregation will have its annual outing at White Sand lake tomorrow. Conveyances will leave the church at 8 o'clock.

Judge Collins and his three sons came down this morning from Leech Lake where they have enjoyed a pleasant outing. They left for their home in St. Cloud on No. 5.

C. F. King, of the advertising department of the St. Paul Dispatch, is in the city. He is going on a trip up north on the M. & I. to write up some of the summer resorts.

J. A. Jones left today for Annandale, where he will look after his father's summer hotel for the balance of the season. Mr. and Mrs. Henry Jones returned from there on Saturday night.

Rev. D. W. Lynch returned this morning from his trip east. He first went to Madison where he visited with his parents, after which he came back to Duluth and took a trip on the big steamer, Northwest, on the great lakes as far as Buffalo. He had a very delightful trip, and has improved in health and is feeling fine.

Rev. O. M. Bloom, who has taught two months school in the Swedish Lutheran church, will have a program and examination of the children at the church at 8 o'clock this evening. Ninety one children have attended, and the school was finished this noon by taking group pictures of all the children.

UNTIMELY DEATH OF W. F. STREET

He was Accidentally Killed While
Out Hunting With his Wife
And Brother.

WELL KNOWN IN MINNESOTA.

Had Practiced Law at Bemidji
for Years and was Heavy
Townsite Owner.

SPECIAL TO THE DISPATCH:

BEKIDJI, MINN., JULY 30, 1903—Attorney W. F. Street was instantly killed this morning by the accidental discharge of a shot gun.

Mr. Street and his wife and his wife's brother went out hunting. Mrs. Street's brother, a mere lad, was carrying a gun and he stumbled and fell, the gun being accidentally discharged. Mr. Street got the full charge and was killed instantly.

Deceased was one of the best known men in northern Minnesota, being especially so as a townsite owner. He was a well known lawyer and had practiced his profession in Bemidji for years. The sad feature about the affair is the fact that he was married only a month ago and his wife is overcome with grief.

HAY FEVER FOR 27 YEARS

Well Known New England Woman Cured
by Hyomei—Cure was Lasting.

The thousands of discouraged people who dread summer's approach because they think that hay fever cannot be avoided, will read with interest and gratitude the following statement from Helen F. Williams, of Mansfield, Mass. "For 27 years, from the month of August until heavy frost, I have been afflicted with hay fever, growing worse and worse each year, and of late years I was unable to attend to my work during last period.

"Last summer I fortunately gave Hyomei a trial and am happy to say that it entirely cured me and I have had no return of the affliction since."

This letter is one of many that have come to the proprietors of Hyomei, and the results following this treatment have been so wonderful that it is proposed at the annual convention of hay fever sufferers to recommend Hyomei to all who are susceptible to this disease.

Hyomei is a treatment for hay fever that combines the latest discoveries of science and the best of common sense. Knowing that a change of climate was the only way in which relief could be obtained, the evolution of Hyomei naturally resulted. By breathing its germ killing and healing balsams, any one can have, at any moment of the day, either in their home, the office or the factory, a climate like that of the White Mountains or other health resorts where hay fever is unknown.

H. P. Dunn & Co. agree to refund the money to any hay fever sufferer who uses Hyomei if it does not give satisfaction. 53

Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Chas. Apelegate, of Alexandria, Ind., "and I could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but, when all other medicine had failed, three \$1.00 bottles of Dr. King's New discovery wholly cured me and I gained 58 pounds." It's absolutely guarantee to cure coughs, colds, la grippe, bronchitis and all throat and lung troubles. Price 50c and \$1.00. Trial bottles free at H. P. Dunn & Co's drug store.

WOMAN AND FASHION

Girl's Linen Frock.

This year embroidery is the prevailing trimming for children's as well as women's gowns. The embroidery designs need not be elaborate, and the simplest are considered the smartest. This kind of embroidery worked in the old fashion cross stitch through embroidery canvas can be done by any one, and the few hours' time required to embroider a collar, stock, belt and

FOR TWELVE-YEAR-OLD GIRL.

cuffs or the yoke or front to a little gown will be amply repaid by the style and smartness thus added.

The little frock illustrated is for a ten or twelve year old girl and is of mercerized lavender linen. It is made with a double box plait in the front of the skirt and shirred on the sides. The waist also has a front box plait and a wide collar with stole ends in front. The box plaits, collars and cuffs are embroidered in a simple diamond scalloped with lavender. The yoke is floss. The collar and cuffs are also trimmed with a fine white muslin ruffle in darker shades of lavender linen of tucked white muslin, and the hat is of white rice straw, trimmed with purple pantries.

New Belt.

In order to be in keeping with the fashions that carry all garments below the waist line the new belts have tabs that are becoming to a stout or slender figure. An inexpensive one is made of black stitched glace silk and finished with silk tassels. The back is decorated with buttons. One of the chief novelties of this belt is the manner of sewing the hooks and eyes in the front so as to give the sloping, long waist effect. The hooks are sewed on the usual way, but the eyes are placed along the top edge of the other end of the belt.

Shirt Waist Suit.

This shirt waist suit in gray chambray is fastened both in blouse and

skirt with large smoked pearl buttons. One of the new tailor effects in collars for these shirt waist suits is shown.

They are Dandies.

"Those Brainerd young men are just fine" is the way a Little Falls young lady expressed it to the Transcript scribe the other day. The aforesaid young lady visited the City of Pines a few days since and while she was looking at "The Girl From Up There" up there some one touched her for her watch. A few days later the young man who took her to the show sent her a new gold watch to take the place of the one she lost.—Transcript.

Special Commission and Board of Control Consider the Walker Sanatorium Matter.

COMMISSION TO VISIT WALKER

And Determine on a Site to be Approved by the State Board of Control.

Dr. Camp, who is a member of the special commission appointed by the governor about two years ago to look into and report on the feasibility of establishing a sanatorium in this state for consumptives, returned this afternoon from St. Paul where he has been to attend a joint meeting of the commission and the board of control.

A week from Monday the commission will go to Walker to select a site subject to the approval of the board of control.

By this time next year it is expected that the sanatorium will be ready to receive patients. The \$25,000 appropriated by the last legislature will be available Saturday, and then the commission will select a site for the institution, which, as provided by the legislative act, must be near Walker, Cass county. The site will be selected officially by the board of control of state institutions.

After the site has been decided upon, consideration of plans for the buildings will be begun. As in the matter of the site, the plans will be accepted by the board of control after they have been approved by the advisory commission. The cost of the site and the buildings, ready for occupation, must not exceed \$150,000.

The institution will be managed by the state board of control, which will appoint a superintendent, and he will name his employees. Those that are unable to pay for the attention they receive will be admitted free upon the request of the county commissioners of the county of which they are residents, and the expense of the patient will be paid by that county.

Only persons suffering from incipient pulmonary tuberculosis shall be received as patients at the sanatorium. Homeopathic treatment will be provided for those that desire it.

DOINGS IN POLICE COURT.

H. C. Hughey is Brought to Brainerd Charged With Assault--George Henderson Case Dismissed.

Judge Warner had his "busy day" sign out yesterday afternoon again, there being several little matters before him.

H. C. Hughey, who lives out on a farm not far from Brainerd, was arrested and brought to the city charged with assault in the third degree. John Gibb was the complaining witness and he claimed to have been rather strenuously handled during the past few months. He pleaded guilty and was fined the sum of \$1 and costs, amounting in all to \$4.

Yesterday the case of the state against George Henderson came up for a hearing again. This is the man whom Richard Ahrens wanted placed under bonds to keep the peace. The state put in its evidence and then Attorney W. H. Crowell, on behalf of Henderson, moved to dismiss. The motion was granted but Henderson was rearrested again on the charge of assault in the third degree and his case was set for hearing on August 5.

Report that Dr. Courtney Would Move to Fargo is Not Confirmed at N. P. Sanitarium.

The Fargo and Crookston papers have had mention two or three times lately to the effect that Dr. W. Courtney, chief surgeon of the N. P. Sanitarium in this city, would move to Fargo for the practice of medicine, and that he was also interested in a proposed new sanitarium in that city.

The doctor states that the rumor is without foundation and credits it to the fact that he took the examination in that state a short time ago, something he had been intending to do for many years past.

MUSIC AND DRAMA.

FRANCIS GREENE STOCK CO.

The Francis Greene Co. pleased an other large audience in "Dangers of a Great City" last evening. Tonight the "Silver King" will be presented with Mr. Chas. B. Archer in the title role. The specialty program will be strengthened by the addition of the musical Japs, a very clever musical team, who joined the company yesterday direct from the Chicago opera house. For the Saturday matinee Mr. Greene is introducing a new feature, giving every child a box of delicious confections--Fargo Daily Argus, Thursday, July 16.

The Francis Greene Stock company will appear at the Brainerd opera house all next week at popular summer prices of 15, 25, 35 and 50c. Ladies will be admitted free Monday night if accompanied by a paid 35 or 50c ticket, purchased on Saturday at Dunns.

A STRONG PETITION.

Signed by Prominent Men Asking President to Extend Time of Cutting Timber off Reservation.

Rather than be compelled to remove by July 1, 1907, all the timber on the Chippewa Indian reservation to be offer for sale by the government this December, prominent Minneapolis lumbermen will carry the matter up to President Roosevelt.

This much was promised by one of the big operators this morning when he saw a dispatch from The Journal's Washington correspondent to the effect that Secretary of the interior Hitchcock would insist on having all the Chippewa timber sold this December removed by July 1, 1907.

There is already on foot a movement to secure the signatures of Governor Van Sant, Lieutenant Governor Ray W. Jones, Senators Knute Nelson and Moses E. Clapp, and all the congressmen of the state on a petition, to be signed by the people of the state irrespective of business interests, asking Secretary Hitchcock to reconsider his determination to have the reservation denuded of timber by the middle of 1907.

Governor Van Sant's name has already been affixed to the petition, which recites the facts in the case, explains the condition under which the government and the Indians will lose money if the reservation is cleared by 1907, and asks Secretary Hitchcock to reconsider his determination to have all the Chippewa forest lands cleared by that time.

BASE BALL NUBS

The Brainerd team will play a game on Sunday either with Royalton or Verdale. It has not been determined yet, but proper announcement will probably be made tomorrow.

Brainerd fans will probably have a chance to see some good fast ball on next Tuesday evening. Manager J. B. Pattison, of St. Cloud, is in the city making arrangements for a game here between the team of that city and the Glencoe team. The Glencoe team plays in St. Cloud Saturday and Sunday and then both teams go to Wahpeton to play. Brainerd being on the way east they are making arrangements to stop off and play a game. The Glencoe team is said to be a good one this year and everyone knows what the St. Cloud team is with Wilson, Miner and Kilroy as pitchers. The game may be called at 6:30 o'clock in the evening.

Why not This County too

In a number of counties of the state special exhibits of grain and grasses are being arranged to be shown at the St. Louis World's Fair next year. The plan is for a committee of two or three of the business men at the county seats to receive all specimens offered. These when collected by the committee will be turned over to an agent of the State Board of Managers, Messrs. Conde Hamlin, St. Paul, J. M. Underwood, Lake City and Theo. L. Hays, Minneapolis, who will have them properly grouped, arranged and displayed where they equal in excellence the samples from other counties. Not only will the county, but the farm from which the samples are gathered, be given due credit. If this is a good thing for other counties, it is a good thing for this one, and with proper care in the selection of samples no county can excel ours. All grains and grasses should be secured before quite ripe, and should be cured in a dark room. Only enough of each kind is needed to make a display bunch of heads, the size of a man's two fists. Corn in the ear is especially desired. Three ears of a kind is sufficient.

No Pity Shown.

"For years fate was after me continuously" writes F. A. Gualledge, Verbena, Ala. "I had a terrible case of piles causing 24 tumors. When all failed Bucklen's Arnica Salve cured me. Equally good for burns and all aches and pains. Only 5c at H. P. Dunn & Co's drug store."

CRUST RESIGNS FROM THE LIBRARY BOARD

Another Meeting of the Board Held last Night in the Public Library Rooms.

BUILDING PLANS ARE DISCUSSED

And the Secretary was Instructed to Correspond with Architects on the Matter.

There was another meeting of the Carnegie public library board last night in the rooms over the N. P. depot. There was not a full membership present, but there were enough members to make a quorum.

The meeting was held for the purpose of discussing some plan regarding the new building and to arrange for the preliminary work. The matter was discussed quite generally, and it was the sentiment that something should be done immediately if the building is to be completed this fall. The secretary was therefore instructed to use all expedient means to get some definite information from architects. He will therefore proceed to correspond with the different ones in the northwest and another meeting of the board will be held some time next week.

During the evening President Cohen announced the appointment of the following members of the board to serve on the library committee: Mesdames Fleming and Early and Prof. T. B. Hartley.

It was also announced that Edward Crust had tendered his resignation as a member of the board, assigning as a reason that he could not afford to devote the time to the duties of the office that he conscientiously thought it required. The mayor has not announced the appointment of a successor to Mr. Crust.

BEMIDJI MAY BE IN IT

For the State G. A. R. Encampment as a Regular Thing--Are Making a Hustle for It.

Judging by present indications, the next state G. A. R. encampment will be held in Bemidji. During the Park Region encampment Governor Van Sant, Department Commander Mahan, officers of the Ladies of the G. A. R. and W. R. C. and others asserted that the encampment was to be taken from the Twin cities and given to a smaller town, where tents could be pitched and true camping life could be led for a week. They stated that if the citizens at Bemidji were desirous of having the encampment and would make adequate provision for it, it would be located there next June, and, once established there it would probably remain for several years, for it is not proposed to change the site every year.

At a rousing mass meeting of citizens a resolution favoring the establishing of the encampment at Bemidji, and pledging to the department commander and council of administration to put forth all possible efforts to suitably entertain the veterans and to donate at least ten acres of choice ground to their use, was adopted by a unanimous vote.

The cost of the site and the buildings, ready for occupation, must not exceed \$150,000.

The institution will be managed by the state board of control, which will appoint a superintendent, and he will name his employees. Those that are unable to pay for the attention they receive will be admitted free upon the request of the county commissioners of the county of which they are residents, and the expense of the patient will be paid by that county.

Only persons suffering from incipient pulmonary tuberculosis shall be received as patients at the sanatorium. Homeopathic treatment will be provided for those that desire it.

DOINGS IN POLICE COURT.

H. C. Hughey is Brought to Brainerd Charged With Assault—George Henderson Case Dismissed.

Judge Warner had his "busy day" sign out yesterday afternoon again, there being several little matters before him.

H. C. Hughey, who lives out on a farm not far from Brainerd, was arrested and brought to the city charged with assault in the third degree. John Gibb was the complaining witness and he claimed to have been rather strenuously handled during the past few months. He pleaded guilty and was fined the sum of \$1 and costs, amounting in all to \$4.

Yesterday the case of the state against George Henderson came up for a hearing again. This is the man whom Richard Ahrens wanted placed under bonds to keep the peace. The state put in its evidence and then Attorney W. H. Crowell, on behalf of Henderson, moved to dismiss. The motion was granted but Henderson was rearrested again on the charge of assault in the third degree and his case was set for hearing on August 5.

Report that Dr. Courtney Would Move to Fargo is Not Confirmed at N. P. Sanitarium.

The Fargo and Crookston papers have had mention two or three times lately to the effect that Dr. W. Courtney, chief surgeon of the N. P. Sanitarium in this city, would move to Fargo for the practice of medicine, and that he was also interested in a proposed new sanitarium in that city.

The doctor states that the rumor is without foundation and credits it to the fact that he took the examination in that state a short time ago, something he had been intending to do for many years past.

MUSIC AND DRAMA.

FRANCIS GREENE STOCK CO.

The Francis Greene Co. pleased an other large audience in "Dangers of a Great City" last evening. Tonight the "Silver King" will be presented with Mr. Chas. B. Archer in the title role. The specialty program will be strengthened by the addition of the musical Japs, a very clever musical team, who joined the company yesterday direct from the Chicago opera house. For the Saturday matinee Mr. Greene is introducing a new feature, giving every child a box of delicious confections. Fargo Daily Argus, Thursday, July 16.

The Francis Greene Stock company will appear at the Brainerd opera house all next week at popular summer prices of 15, 25, 35 and 50c. Ladies will be admitted free Monday night if accompanied by a paid 35 or 50c ticket, purchased on Saturday at Dunns.

A STRONG PETITION.

Signed by Prominent Men Asking President to Extend Time of Cutting Timber off Reservation.

Rather than be compelled to remove by July 1, 1907, all the timber on the Chippewa Indian reservation to be offered for sale by the government this December, prominent Minneapolis lumbermen will carry the matter up to President Roosevelt.

This much was promised by one of the big operators this morning when he saw a dispatch from The Journal's Washington correspondent to the effect that Secretary of the interior Hitchcock would insist on having all the Chippewa timber sold this December removed by July 1, 1907.

There is already on foot a movement to secure the signatures of Governor Van Sant, Lieutenant Governor Ray W. Jones, Senators Knute Nelson and Moses E. Clapp, and all the congressmen of the state on a petition, to be signed by the people of the state irrespective of business interests, asking Secretary Hitchcock to reconsider his determination to have the reservation denuded of timber by the middle of 1907.

Governor Van Sant's name has already been affixed to the petition, which recites the facts in the case, explains the condition under which the government and the Indians will lose money if the reservation is cleared by 1907, and asks Secretary Hitchcock to reconsider his determination to have all the Chippewa forest lands cleared by that time.

BASE BALL NUBS

The Brainerd team will play a game on Sunday either with Royaltan or Vernaldale. It has not been determined yet, but proper announcement will probably be made tomorrow.

Brainerd fans will probably have a chance to see some good fast ball on next Tuesday evening. Manager J. B. Pattison, of St. Cloud, is in the city making arrangements for a game here between the team of that city and the Glencoe team. The Glencoe team plays in St. Cloud Saturday and Sunday and then both teams go to Wahpeton to play. Brainerd being on the way east they are making arrangements to stop off and play a game. The Glencoe team is said to be a good one this year and everyone knows what the St. Cloud team is with Wilson, Miner and Kilroy as pitchers. The game may be called at 6:30 o'clock in the evening.

Why not This County too

In a number of counties of the state special exhibits of grain and grasses are being arranged to be shown at the St. Louis World's Fair next year. The plan is for a committee of two or three of the business men at the county seats to receive all specimens offered. These when collected by the committee will be turned over to an agent of the State Board of Managers, Messrs. Conde Hamlin, St. Paul, J. M. Underwood, Lake City and Theo. L. Hays, Minneapolis, who will have them properly grouped, arranged and displayed where they equal in excellence the samples from other counties. Not only will the county, but the farm from which the samples are gathered, be given due credit. If this is a good thing for other counties, it is a good thing for this one, and with proper care in the selection of samples no county can excel ours. All grains and grasses should be secured before quite ripe, and should be cured in a dark room. Only enough of each kind is needed to make a display bunch of heads, the size of a man's two fists. Corn in the ear is especially desired. Three ears of a kind is sufficient.

No Pity Shown.

"For years fate was after me continuously" writes F. A. Gullede, Verbena, Ala. "I had a terrible case of piles causing 24 tumors. When all failed Bucklen's Arnica Salve cured me. Equally good for burns and all aches and pains. Only 25c at H. P. Dunn & Co's drug store."

CRUST RESIGNS FROM THE LIBRARY BOARD

Another Meeting of the Board Held last Night in the Public Library Rooms.

BUILDING PLANS ARE DISCUSSED

And the Secretary was Instructed to Correspond with Architects on the Matter.

There was another meeting of the Carnegie public library board last night in the rooms over the N. P. depot. There was not a full membership present, but there were enough members to make a quorum.

The meeting was held for the purpose of discussing some plan regarding the new building and to arrange for the preliminary work. The matter was discussed quite generally, and it was the sentiment that something should be done immediately if the building is to be completed this fall. The secretary was therefore instructed to use all expedient means to get some definite information from architects. He will therefore proceed to correspond with the different ones in the northwest and another meeting of the board will be held some time next week.

During the evening President Cohen announced the appointment of the following members of the board to serve on the library committee: Mesdames Fleming and Early and Prof. T. B. Hartley.

It was also announced that Edward Crust had tendered his resignation as a member of the board, assigning as a reason that he could not afford to devote the time to the duties of the office that he conscientiously thought it required. The mayor has not announced the appointment of a successor to Mr. Crust.

BEMIDJI MAY BE IN IT

For the State G. A. R. Encampment as a Regular Thing--Are Making a Hustle for It.

Judging by present indications, the next state G. A. R. encampment will be held in Bemidji. During the Park Region encampment Governor Van Sant, Department Commander Mahan, officers of the Ladies of the G. A. R. and W. R. C. and others asserted that the encampment was to be taken from the Twin cities and given to a smaller town, where tents could be pitched and true camping life could be led for a week. They stated that if the citizens at Bemidji were desirous of having the encampment and would make adequate provision for it, it would be located there next June, and, once established there it would probably remain for several years, for it is not proposed to change the site every year.

At a rousing mass meeting of citizens a resolution favoring the establishing of the encampment at Bemidji, and pledging to the department commander and council of administration to put forth all possible efforts to suitably entertain the veterans and to donate at least ten acres of choice ground to their use, was adopted by a unanimous vote.

WASHINGTON LETTER

(Special Correspondence.)
The national capital has thirty-one public and semipublic libraries, the smallest of which would be considered a first class, not to say magnificent, book collection in the general run of cities. The library of congress, which, as everybody knows, is the largest library on the western hemisphere, contains upward of a million volumes and furnishes a palace in which to peruse them—delightfully cool in summer, well warmed in winter, well lighted, with ice water and other conveniences furnished entirely free of cost by Uncle Samuel. The student may have his choice of table, desk or alcove, placed there for his use, and Uncle Sam also employs people to bring and to take away whatever books the reader desires, and, meantime, maintains silence, so that nobody may be disturbed in his studies. Paper, pens and ink are furnished freely.

Then there is the new Carnegie library, another, though less sumptuous, palace of white marble, where the seeker after knowledge may not only study as long as he likes, but may take out books and keep them, too, until he has absorbed their contents. Among the others are the Carroll Institute library, which contains about 5,000 volumes; the Peabody, 10,000; the Masonic library, 3,000—in short, a grand total of more than 5,000,000 volumes to which the Washington public has free access.

Parliamentary Excursionists.
District Commissioner Macfarland has received a note from Dr. H. S. Lunn, chairman of the New Reform club of London, who has been in New York making preliminary arrangements for the arrival of the parliamentary excursionists in this country. Dr. Lunn stated to the commissioners that the party would probably be in Washington between Oct. 3 and 5. It is expected that the president will be home at that time and will give a reception in honor of the visitors. The commissioners will do all in their power to make the stay of the members of the house of lords and the house of commons a pleasant one.

The parliamentary excursion has been arranged by Lord Lyvedon, being planned primarily to give the English legislators a tour through Canada. The excursionists will journey across that country and back again before extending their visit into the United States.

Increase in Diamond Imports.
A remarkable import record is shown by the bureau of statistics recently issued statement, which places the imports of diamonds and other precious stones for the last fiscal year at \$30,000,000. This exceeds by 50 per cent the importation of diamonds in 1901 and is more than six times the average during the period from 1890 to 1897.

The large imports of precious stones indicate the development of a comparatively new industry in the country—that of cutting diamonds. The value of uncut diamonds imported in eleven months ending with May has grown from \$2,500,000 in 1898 to \$10,000,000 in 1903. The census statistics of "lapidary work" show that the total value of production of lapidary work in 1900 was over \$5,500,000 against less than \$500,000 in 1890.

Wanted Some Big Words.
Secretary Shaw, pleased at a service rendered by a colored man, offered him some money. The man refused it, saying that it had been a pleasure and an honor to be asked to do something for such "an eminent celebrity," and then added, "But if you will give me a few big words in payment I shall be mighty grateful." "Certainly," replied the secretary, "but what do you want big words for?" "Mr. Secretary," replied the darky, with vast dignity, "I am one of the most principal speakers at my debating club, and we have hot times over politics and religion, and I want those big words to use when some calamitous occasion predominates."

Will Protect American Shipping.
The navy department, at the instance of the state department, has taken steps to prevent further interference with American shipping in the Orinoco by either government or rebel forces. This action was taken upon the advice of Mr. Russell, United States charge at Caracas, to the effect that the government forces had detained two ships belonging to the Orinoco Steam Navigation company at San Fernando and the insurgents had detained and were likely to destroy three other ships belonging to the same company at Ciudad Bolivar. Orders were cabled to the United States steamship Bancroft at Port of Spain to proceed at once upon the Orinoco and release the detained vessels.

An Artistic "Pick Up."
On the walls of the antechamber of the office of the secretary of war hangs a gallery of portraits of his predecessors, resembling in variety of subject and execution the group of ancestors sold to the Jews by "Charles Surface" in the play. When Mr. Root's portrait is added to the collection he need not waste time and money in sittings, as he can put under one of the present portraits the legend, "Ellihu Root, ditto to Mr. Polinsett," and every one who knows Mr. Root at all will recognize the hit as happy. The resemblance of feature is extraordinary. James R. Polinsett of South Carolina was secretary of war from 1837 to 1841.

Lafayette's Great-Grandson.
The Viscount de Chambrun, great-grandson of Lafayette, may be seen any day in the lobby of one of our fashionable hotels. The young French diplomat is possessed of very democratic manners and is bound to make himself popular with all classes. He is dark complexioned and of slight physique, but looks a good deal more like a Yankee than a Frenchman. He speaks the English language without a trace of accent. CARL SCHOFIELD.

PEOPLE OF THE DAY

The Vanderbilts Reconciled.
Peace reigns once more in the home of the Vanderbilts. The estrangement of Cornelius from his family is at an end, and now there are harmony and friendship where for several years disaffection and coldness held sway. Cornelius Vanderbilt, Sr., had mapped out a great future for his eldest son who bore his father's name and who had, while still a very young man

CORNELIUS VANDERBILT.

shown unusual ability. He was to succeed his father as a great railway king and continue the name of Vanderbilt as an unparalleled power in the railway world. Hearts, however, are not so easily molded as tracks and cars and stocks and bonds. Young Vanderbilt met and loved Grace Wilson. Vanderbilt senior objected to a union between his son and Miss Wilson, but the young man was as stubborn as his elder. Despite pleadings and threats Grace Wilson was made Mrs. Cornelius Vanderbilt, Jr., in 1895. So displeased was Vanderbilt senior that he made a will reducing his eldest son from the head of the house of Vanderbilt and elevating the younger brother, Alfred Gwynne Vanderbilt. That the father's anger had carried him so far was not known until after his death and the reading of his will. From that time there was a breach between young Cornelius and the other members of his father's family. The reconciliation, recently announced, was brought about by Alfred Gwynne Vanderbilt, and he is credited with saying that he has found great happiness in his role of peacemaker.

The Shamrock's Captain.
Captain Robert Wringe, who is to sail Shamrock III. in her contests for the America's cup, is very popular among British yachtsmen, who think that if the cup is ever to go to their side of the Atlantic Bob Wringe will be the man to bear it. Captain Wringe is a native of Brightlingsea, England, where he still resides. Before he became a crack yachting skipper he had

CAPTAIN ROBERT WRINGE.

been to sea as an ordinary sailor before the mast. He has had considerable experience in American waters, having sailed August Belmont's yachts for some time. He also sailed Alisa for F. R. Jameson and was with Captain Archie Hogarth on Shamrock I. when that first of the Lipton string attempted to lift the cup.

It is said in England that Captain Wringe will be knighted by King Edward if he wins the America's cup, and it is also believed that he will be made mayor of Brightlingsea as a reward if victorious. Captain Sycamore, who sailed Shamrock II., has been mayor of Brightlingsea.

Virginia Harned's Name.
People generally are given to "wondering things" where stage folks are concerned, says the Pittsburg Gazette. They wonder whether they are married or single, what their really, truly names are, where they come from and what their nationality happens to be, how old they are and how they came to adopt a stage career, whether they ever had the measles and whether their vaccination took.

Thousands have wondered why Virginia Harned when she married E. H. Sothern did not change her name on the billboards as well as on the marriage license. Not long ago Virginia explained

"It is because, my dear friend," she told the last inquirer, "I do not wish to be known as a railroad. I have trouble enough now."
"A railroad?" queried the friend.
"Yes. You see, there are already the Kansas Southern, the Canada Southern, the Georgia Southern and the Texas Southern. I don't think there is any need of a Virginia Sothern, do you?"

CONDUCTOR LOCATED.

E. E. Clements Crawled Five Miles From the Wreck at Viasaty, Minn.
St. Paul, July 30.—Severely injured in the Great Western collision, E. E. Clements, conductor of the freight train that collided with passenger train No. 1 at Viasaty, Minn., Sunday morning, made his way as best he could to a farmhouse five miles distant from the fatal wreck. He is lying there ill as a result of his injuries.

"My husband is badly hurt," said Mrs. Clements last night after returning from a visit to her husband, "and I do not expect him back home till he is able to be on his feet."

"I received word from him Monday that he was at the farmhouse," continued Mrs. Clements, "and I set out immediately. I found him in a serious condition, suffering from injuries."

"He will not speak about the wreck and does not want anyone else to speak of it in his presence."
"How he got to the farmhouse from the scene of the wreck and how he managed to cover five miles in his condition is more than I can understand."

Clements arrived at the farmhouse Sunday afternoon in an extremely exhausted condition, having crawled most of the way. He collapsed when he was taken into the house of the farmer and it was hours before he was able to tell who he was. The people cared for him and applied restoratives. He was so weak from the combined effects of the injury he had received and the anxiety over the wreck that the farmer feared he might not recover. A physician was summoned and under his care Clements has gradually improved.

SENATOR DAVIS' WIDOW WEDS.

Becomes the Wife of Hunter Doll of Knoxville, Tenn.
Washington, July 30.—Mrs. Anna Agnew Davis, widow of the late United States Senator Cushman K. Davis of Minnesota, and Hunter Doll of Knoxville, Tenn., were married at the bride's home in this city during the day. Rev. E. S. Dunlap of St. John's Episcopal church officiated. Only a few intimate friends witnessed the ceremony. The couple left for the South on their honeymoon trip.

CAR JUMPS THE TRACK.

One Passenger Killed and Seventeen Others Injured.
Anderson Ind., July 30.—A derailment on the Union Traction company line in the suburbs of Anderson last night killed Walter McGowan and severely injured seventeen other passengers. The car was going at full speed when it struck a sharp curve. The brakes failed to work and the car shot from the track and turned over.

Mrs. T. J. Carr of Cleveland, O., was crushed and internally injured. She may die. The other injured persons will recover.

RIOTERS UNDER ARREST.

Eleven Persons Charged With Lawless Conduct at Danville, Ill.
Danville, Ill., July 30.—Eleven persons have been arrested on a charge of participating in the lawless outbreak of Saturday night when the jail was attacked in an effort to lynch James Wilson, a negro, who, it is alleged, assaulted Mrs. Burgess of Alvin. The grand jury has been ordered to reconvene on Monday to indict the leaders of the mob. Of those arrested only one gave bond. A guard has been placed around the hospitals, where five men who were members of the mob are receiving treatment for their wounds.

Woman Killed in a Quarrel.

Spokane, Wash., July 30.—Mrs. Catherine M. Northrup was shot and killed by James Sanford at the latter's home on a fruit ranch, twenty miles northwest of Almira. Sanford had leased the ranch from Mrs. Northrup; a quarrel arose and she tried to evict him.

Child Smothered.

Mora, Minn., July 30.—Arthur Stenstrom, the fifteen-months-old son of John Stenstrom of Knife Lake, fell into a spout made for conducting potatoes to a pit and was smothered. The spout was made smaller at the bottom than at the top.

WASHINGTON LETTER

(Special Correspondence.)

The national capital has thirty-one public and semipublic libraries, the smallest of which would be considered a first class, not to say magnificent, book collection in the general run of cities. The library of congress, which, as everybody knows, is the largest library on the western hemisphere, contains upward of a million volumes and furnishes a palace in which to peruse them—delightfully cool in summer, well warmed in winter, well lighted, with ice water and other conveniences furnished entirely free of cost by library Uncle Samuel. The student may have his choice of table, desk or alcove, placed there for his use, and Uncle Sam also employs people to bring and to take away whatever books the reader desires, and, meantime, maintains silence, so that nobody may be disturbed in his studies. Paper, pens and ink are furnished freely.

Then there is the new Carnegie library, another, though less sumptuous, palace of white marble, where the seeker after knowledge may not only study as long as he likes, but may take out books and keep them, too, until he has absorbed their contents. Among the others are the Carroll Institute library, which contains about 5,000 volumes; the Peabody, 10,000; the Masonic library, 3,000—in short, a grand total of more than 5,000,000 volumes to which the Washington public has free access.

Parliamentary Excursionists.

District Commissioner Macfarland has received a note from Dr. H. S. Lunn, chairman of the New Reform Club of London, who has been in New York making preliminary arrangements for the arrival of the parliamentary excursionists in this country. Dr. Lunn stated to the commissioner that the party would probably be in Washington between Oct. 3 and 5. It is expected that the president will be home at that time and will give a reception in honor of the visitors. The commissioners will do all in their power to make the stay of the members of the house of lords and the house of commons a pleasant one.

The parliamentary excursion has been arranged by Lord Lyvedon, being planned primarily to give the English legislators a tour through Canada. The excursionists will journey across that country and back again before extending their visit into the United States.

Increase in Diamond Imports.

A remarkable import record is shown by the bureau of statistics recently issued statement, which places the imports of diamonds and other precious stones for the last fiscal year at \$30,000,000. This exceeds by 50 per cent the importation of diamonds in 1901 and is more than six times the average during the period from 1890 to 1897.

The large imports of precious stones indicate the development of a comparatively new industry in the country—that of cutting diamonds. The value of uncut diamonds imported in eleven months ending with May has grown from \$2,500,000 in 1898 to \$10,000,000 in 1903. The census statistics of "lapidary work" show that the total value of production of lapidary work in 1900 was over \$5,500,000 against less than \$500,000 in 1890.

Wanted Some Big Words.

Secretary Shaw, pleased at a service rendered by a colored man, offered him some money. The man refused it, saying that it had been a pleasure and an honor to be asked to do something for such "an eminent celebrity," and then added, "But if you will give me a few big words in payment I shall be mighty grateful." "Certainly," replied the secretary, "but what do you want big words for?" "Mr. Secretary," replied the darky, with vast dignity, "I am one of the most principal speakers at my debating club, and we have hot times over politics and religion, and I want those big words to use when some calamitous occasion predominates."

Will Protect American Shipping.

The navy department, at the instance of the state department, has taken steps to prevent further interference with American shipping in the Orinoco by either government or rebel forces. This action was taken upon the advice of Mr. Russell, United States charge at Caracas, to the effect that the government forces had detained two ships belonging to the Orinoco Steam Navigation company at San Fernando and the insurgents had detained and were likely to destroy three other ships belonging to the same company at Ciudad Bolivar. Orders were cable to the United States steamship Bancroft at Port of Spain to proceed at once up the Orinoco and release the detained vessels.

An Artistic "Pick Up."

On the walls of the antechamber of the office of the secretary of war hangs a gallery of portraits of his predecessors, resembling in variety of subject and execution the group of ancestors sold to the Jews by "Charles Surface" in the play. When Mr. Root's portrait is added to the collection he need not waste time and money in sittings, as he can put under one of the present portraits the legend, "Elihu Root, ditto to Mr. Poinsett," and every one who knows Mr. Root at all will recognize the hit as happy. The resemblance of feature is extraordinary. James R. Poinsett of South Carolina was secretary of war from 1837 to 1841.

Lafayette's Great-Grandson.

The Viscount de Chambrun, great-grandson of Lafayette, may be seen any day in the lobby of one of our fashionable hotels. The young French diplomat is possessed of very democratic manners and is bound to make himself popular with all classes. He is dark complexioned and of slight physique, but looks a good deal more like a Yankee than a Frenchman. He speaks the English language without a trace of accent. CARL SCHOFIELD.

PEOPLE OF THE DAY

The Vanderbilts Reconciled.

Peace reigns once more in the household of the Vanderbilts. The estrangement of Cornelius from his family is at an end, and now there are harmony and friendship where for several years disaffection and coldness held sway. Cornelius Vanderbilt, Sr., had mapped out a great future for his eldest son who bore his father's name and who had, while still a very young man

CORNELIUS VANDERBILT.

shown unusual ability. He was to succeed his father as a great railway king and continue the name of Vanderbilt as an unparalleled power in the railway world. Hearts, however, are not so easily molded as tracks and cars and stocks and bonds. Young Vanderbilt met and loved Grace Wilson. Vanderbilt senior objected to a union between his son and Miss Wilson, but the young man was as stubborn as his elder. Despite pleadings and threats Grace Wilson was made Mrs. Cornelius Vanderbilt, Jr., in 1855. So displeased was Vanderbilt senior that he made a will reducing his eldest son from the head of the house of Vanderbilt and elevating the younger brother, Alfred Gwynne Vanderbilt. That the father's anger had carried him so far was not known until after his death and the reading of his will. From that time there was a breach between young Cornelius and the other members of his father's family. The reconciliation, recently announced, was brought about by Alfred Gwynne Vanderbilt, and he is credited with saying that he has found great happiness in his role of peacemaker.

The Shamrock's Captain.

Captain Robert Wringe, who is to sail Shamrock III. in her contests for the America's cup, is very popular among British yachtsmen, who think that if the cup is ever to go to their side of the Atlantic Bob Wringe will be the man to bear it. Captain Wringe is a native of Brightlingsea, England, where he still resides. Before he became a crack yachting skipper he had

CAPTAIN ROBERT WRINGE.

been to sea as an ordinary sailor before the mast. He has had considerable experience in American waters, having sailed August Belmont's yachts for some time. He also sailed Alisa for F. B. Jameson and was with Captain Archie Hogarth on Shamrock I. when that first of the Lipton string attempted to lift the cup.

It is said in England that Captain Wringe will be knighted by King Edward if he wins the America's cup, and it is also believed that he will be made mayor of Brightlingsea as a reward for his services. Captain Wringe, who sailed Shamrock II., has been mayor of Brightlingsea.

Virginia Harned's Name.

People generally are given to "wondering things" where stage folks are concerned, says the Pittsburg Gazette. They wonder whether they are married or single, what their really, truly names are, where they come from and what their nationality happens to be, how old they are and how they came to adopt a stage career, whether they ever had the measles and whether their vaccination took.

Thousands have wondered why Virginia Harned when she married E. H. Sothern did not change her name on the billboards as well as on the marriage license. Not long ago Virginia explained.

"It is because, my dear friend," she told the last inquirer, "I do not wish to be known as a railroad. I have trouble enough now."

"A Railroad?" queried the friend.

"Yes. You see, there are already the Kansas Southern, the Canada Southern, the Georgia Southern and the Texas Southern. I don't think there is any need of a Virginia Sothern, do you?"

CONDUCTOR LOCATED.

E. E. Clements Crawled Five Miles From the Wreck at Vlasaty, Minn.

St. Paul, July 30.—Severely injured in the Great Western collision, E. E. Clements, conductor of the freight train that collided with passenger train No. 1 at Vlasaty, Minn., Sunday morning, made his way as best he could to a farmhouse five miles distant from the fatal wreck. He is lying there ill as a result of his injuries.

"My husband is badly hurt," said Mrs. Clements last night after returning from a visit to her husband, "and I do not expect him back home till he is able to be on his feet."

"I received word from him Monday that he was at the farmhouse," continued Mrs. Clements, "and I set out immediately. I found him in a serious condition, suffering from injuries."

"He will not speak about the wreck and does not want anyone else to speak of it in his presence."

"How he got to the farmhouse from the scene of the wreck and how he managed to cover five miles in his condition is more than I can understand."

Clements arrived at the farmhouse Sunday afternoon in an extremely exhausted condition, having crawled most of the way. He collapsed when he was taken into the house of the farmer and it was hours before he was able to tell who he was. The people cared for him and applied restoratives.

He was so weak from the combined effects of the injury he had received and the anxiety over the wreck that the farmer feared he might not recover. A physician was summoned and under his care Clements has gradually improved.

SENATOR DAVIS' WIDOW WEDS.

Becomes the Wife of Hunter Doll of Knoxville, Tenn.

Washington, July 30.—Mrs. Anna Agnew Davis, widow of the late United States Senator Cushman K. Davis of Minnesota, and Hunter Doll of Knoxville, Tenn., were married at the bride's home in this city during the day. Rev. E. S. Dunlap of St. John's Episcopal church officiated. Only a few intimate friends witnessed the ceremony. The couple left for the South on their honeymoon trip.

CAR JUMPS THE TRACK.

One Passenger Killed and Seventeen Others Injured.

Anderson Ind., July 30.—A derailment on the Union Traction company line in the suburbs of Anderson last night killed Walter McGowan and severely injured seventeen other passengers. The car was going at full speed when it struck a sharp curve. The brakes failed to work and the car shot from the track and turned over.

Mrs. T. J. Carr of Cleveland, O., was crushed and internally injured. She may die. The other injured persons will recover.

RIOTERS UNDER ARREST.

Eleven Persons Charged With Lawless Conduct at Danville, Ill.

Danville, Ill., July 30.—Eleven persons have been arrested on a charge of participating in the lawless outbreak of Saturday night when the jail was attacked in an effort to lynch James Wilson, a negro, who, it is alleged, assaulted Mrs. Burgess of Alvin. The grand jury has been ordered to reconvene on Monday to indict the leaders of the mob. Of those arrested only one gave bond. A guard has been placed around the hospitals, where five men who were members of the mob are receiving treatment for their wounds.

Woman Killed in a Quarrel.

Spokane, Wash., July 30.—Mrs. Catherine M. Northrup was shot and killed by James Sanford at the latter's home on a fruit ranch, twenty miles northwest of Almira. Sanford had leased the ranch from Mrs. Northrup; a quarrel arose and she tried to elicit him.

Child Smothered.

Mora, Minn., July 30.—Arthur Stenstrom, the fifteen-months-old son of John Stenstrom of Knife Lake, fell into a spout made for conducting potatoes to a pit and was smothered. The spout was made smaller at the bottom than at the top.
